

functional equations inequalities and pdf

In mathematics, a functional equation is any equation in which the unknown represents a function. Often, the equation relates the value of a function (or functions) at some point with its values at other points. For instance, properties of functions can be determined by considering the types of functional equations they satisfy. The term functional equation usually refers to equations that ...

As an amusing side note, in a science essay called "The Sight Of Home" Isaac Asimov once calculated how far an interstellar colony would have to be from Terra before Sol was too dim to be seen in the colony's night sky with the naked eye. Turns out that colonies further than 20 parsecs (65 light-years) cannot see Mankind's Homestar, because Sol's apparent magnitude is dimmer than 6.
