

philosophy of behavioral biology pdf

Philosophy of science is a sub-field of philosophy concerned with the foundations, methods, and implications of science. The central questions of this study concern what qualifies as science, the reliability of scientific theories, and the ultimate purpose of science. This discipline overlaps with metaphysics, ontology, and epistemology, for example, when it explores the relationship between ...

(This is the second of a two-part series. In the first part I argued that morality is best conceived as a socially constructed reality.). Part II: The Practice of Morality. When we recognize the socially constructed status of moral rules, responsibilities, obligations, prohibitions and the like we may find ourselves in a bit of a quandary: what to do with our new understanding.
