Here are some good references for planning, designing, and building a micro-hydro system. Step zero is to  
carefully determine if you have a hydro resource that is worth developing -- some of the references cover how  
to do this in detail.

What are solar panels? Solar panel electricity systems, also known as photovoltaics (PV), capture the sun's  
energy using photovoltaic cells. These cells don't need direct sunlight to work -- they can still generate

some electricity on a cloudy day.
