

popular music in france pdf

Popular music is music with wide appeal that is typically distributed to large audiences through the music industry. These forms and styles can be enjoyed and performed by people with little or no musical training. It stands in contrast to both art music and traditional or "folk" music. Art music was historically disseminated through the performances of written music, although since the ...

Popular music - Wikipedia

The music of France reflects a diverse array of styles. In the field of classical music, France has produced a number of prominent romantic composers, while folk and popular music have seen the rise of the chanson and cabaret style. The earliest known sound recording device in the world, the phonograph, was patented in France by Édouard-Léon Scott de Martinville in 1857.
