We show, via a massive (N = 689,003) experiment on Facebook, that emotional states can be transferred to others via emotional contagion, leading people to experience the same emotions without their awareness. We provide experimental evidence that emotional contagion occurs without direct interaction between people (exposure to a friend expressing an emotion is sufficient), and in the complete ...

Experimental evidence of massive-scale emotional contagion

Developed by the University of North Texas Libraries, this guide provides links to general government style guides, style manuals of specific agencies and foreign government documents.
