Preventive healthcare (alternately preventive medicine, preventative healthcare/medicine, or prophylaxis) consists of measures taken for disease prevention, as opposed to disease treatment. Just as health comprises a variety of physical and mental states, so do disease and disability, which are affected by environmental factors, genetic predisposition, disease agents, and lifestyle choices.

Preventive healthcare - Wikipedia

Abstract. In Brief. PowerUp is a community-wide initiative to make better eating and physical activity easy and fun for youths and the entire community as part of an effort to prevent childhood obesity.
