

puberty in boys normal pdf

Two of the most significant differences between puberty in girls and puberty in boys are the age at which it begins, and the major sex steroids involved, the testosterone and the estrogens.. Although there is a wide range of normal ages, girls typically begin the process of puberty at age 10 or 11; boys at ages 11–12.

Puberty - Wikipedia

Delayed puberty is described as delayed puberty with exceptions when an organism has passed the usual age of onset of puberty with no physical or hormonal signs that it is beginning. Puberty may be delayed for several years and still occur normally, in which case it is considered constitutional delay of growth and puberty, a variation of healthy physical development.
