

### **push and pull top pdf**

Push-pull is a configuration for locomotive-hauled trains, allowing them to be driven from either end of the train, whether having a locomotive at each end or not.. A push-pull train has a locomotive at one end of the train, connected via some form of remote control, such as multiple-unit train control, to a vehicle equipped with a control cab at the other end of the train.

Bulldozer Training inspired me to a created a push/pull/legs routine employing heavy, medium, and light loads during each workout.. Each workout starts out with a compound lift using a 15 rep goal over 5 sets. If you exceed the rep goal by 0-3 reps then add 2.5-5lbs to the working weight the next time you perform the exercise.
