What skills do designers need to be competitive in the future?

The Strategic Designer: Tools & Techniques for Managing

A designer is a person who makes designs for objects. A fashion designer designs clothing, a web designer designs web pages, and an automobile designer designs automobiles. In each case, the designer works with the help of a technician or engineer who understands deeper level concepts of manufacturing and engineering, and the designer themselves is largely confined to work at a surface level.

Dynamic websites are generated on the fly and use server-side technology to generate webpages. They typically extract their content from one or more back-end databases: some are database queries across a relational database to query a catalogue or to summarise numeric information, others may use a document database such as MongoDB or NoSQL to store larger units of content, such as blog posts ...

- Think about the last time you were involved in a negotiation. We're you happy with the outcome? Did you get what you wanted? If you're like most people the answer is probably no. Negotiation can be challenging, but with the right set of tools and techniques you can become a much more effective negotiator, and that's what this course is all about. I'm Mike Figliuolo and not only do I teach ...
