

vortex theory of planetary pdf

Note! This is an introductory article covering the most basic principles of the Fractal Holographic Universe theory. For a more in depth understanding of the physics involved, please read Quantum Gravity and the Holographic Mass Nassim Hamein's life long investigation into the geometry of space has led to his publication of several scientific papers in which he presents a new solution

The Fractal Holographic Universe

A planetary system is a set of gravitationally bound non-stellar objects in or out of orbit around a star or star system. Generally speaking, systems with one or more planets constitute a planetary system, although such systems may also consist of bodies such as dwarf planets, asteroids, natural satellites, meteoroids, comets, planetesimals and circumstellar disks.

A consideration for this: If warfare is about causing the maximum destruction, these space siege scenarios make sense. If warfare is about achieving political objectives by other means, you need to either leave someone to negotiate the surrender with, or leave something worth occupying.

Chaos theory is a branch of mathematics focusing on the behavior of dynamical systems that are highly sensitive to initial conditions. "Chaos" is an interdisciplinary theory stating that within the apparent randomness of chaotic complex systems, there are underlying patterns, constant feedback loops, repetition, self-similarity, fractals, self-organization, and reliance on programming at the ...

Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.

Models of the Universe

Addresses many global questions regarding Trends and Developments In Health and Environment, Psycho-Social Transition, corrections and rehabilitation, integrated health and education. About how, why, when, & where we are evolving as human beings or NOT so much. A Multi-Level look at challenges for Mankind getting through the millennium's 1st decade, 1st century, and beyond; cross-disciplinary ...
