The first winter after planting, your young tree should have a new central leader and several scaffold branches which have grown several feet. Cut off the new central leader about three feet above the highest scaffold branch. This will again stimulate the buds below the cut to form both upward and outward growing shoots the following spring.

Pruning and Training Apple Trees by

The best of young adult books. Young-adult books are books marketed to adolescents, roughly between the ages of 12 and 17, and usually feature main characters in that age range. If the book is part of a series, please only vote for the first book.
